

I am writing regard to the possible pre-empting of the Indiana No-Call list. Since signing on to the list, I have enjoyed a much less stressed home life without the annoying telemarketing calls. I absolutely do not want a service that I pay for being used to harrass me in my own home. The no-call list has enabled me to enjoy the home I have worked hard to maintain all my life. I would not let strangers into my home off the street to sell me things and I do want strangers calling me on my phone to do the same.
Leave the current list alone!!!
Thank you.
